## PETITION TITLE

This initiated measure would create a new chapter to the North Dakota Century Code making it a crime for a physician to knowingly decapitate or crush the skull of a living unborn child or to incidentally cause serious bodily injury to the mother due to a resulting skull fragment; medical treatment could be used to save the life of the mother if the death of the child is incidental to the treatment.

## FULL TEXT OF THE MEASURE

IF MATERIAL IS UNDERSCORED, IT IS NEW MATERIAL WHICH IS BEING ADDED. IF MATERIAL IS OVERSTRUCK BY DASHES, THE MATERIAL IS BEING DELETED. IF MATERIAL IS NOT UNDERSCORED OR OVERSTRUCK, THE MATERIAL IS EXISTING LAW THAT IS NOT BEING CHANGED.

### BE IT ENACTED BY THE PEOPLE OF THE STATE OF NORTH DAKOTA:

**SECTION 1.** Chapter 12.1-17.2 of the North Dakota Century Code is created and enacted as follows:

**12.1-17.2-01. Short title.**

This chapter shall be known and may be cited as The Baby Decapitation and Skull Crushing Ban.

**12.1-17.2-02. Definitions.** As used in this chapter:

1. "Decapitation" means serious bodily injury in which a person uses any instrument or procedure to grasp or cut the skull or neck of a living unborn child for the purpose of separating the skull from the neck.

2. "Skull crushing" means serious bodily injury in which a person uses any instrument or procedure to grasp or cut the skull of a living unborn child for the purpose of compressing or collapsing the skull in a life-endangering manner.

**12.1-17.2-03. Decapitation and skull crushing of living unborn children.**

1. No physician shall knowingly decapitate or crush the skull of a living unborn child. A violation of this section is a class A felony.

2. If a violation of this section results in a skull fragment, which causes serious bodily injury to the mother while inside the mother or while being removed, then the penalty for the physician is a class AA felony of life imprisonment without parole.

3. Medical treatment may be provided in cases where the lives of the mother or her unborn child are at risk and the death of the child is incidental to the lifesaving intervention.
